RELIEF MOBILIZATION

It is known that an un-
employment emergency will be had
next winter. Relief workers will
know that there will be a great
need for food, clothing and
shelter among the poor for many
months to come.

Plans for continuing relief work
will be made by the king on
September 10, when he is in
Washington.

It is expected to conduct an intensive mobiliza-
tion effort between October 29
and November 10, when the king
will be called upon to give life
eagerly for the support of local com-
munity chests, but no national
fund will be raised.

Newton D. Baker, former secre-
tary of war and head of relief
organization last year, has been
called to Washington as chairman
of the mobilization committee of the
1933 mobilization, the object
of which is thus stated: "Its sole
purpose is to collect and to serve
the public needs of the country
and to prevent the public necessity
of the human services which must be sup-
ported at critical times."

As before, women will play an
important part in this mobiliza-
tion, and women's committees will be
asked to contribute to the welfare
supporting welfare services.

Through the unselfish labor of
many thousands of volunteer social
workers, both men and women, sufficent funds have been raised

to meet the emergency needs of
the community centers.

The matter of rural education
is one of the most pressing of the
problems which confront our edu-
cational institutions, and the most earnest consideration at the
hands of educators and the general
public alike.

There are now 2,158 airports
and landing fields in the United
States, 703 of which have night
lighting equipment.

These boys and girls in improving
rural schools fitting them to become ef-
ficient farmers and homemakers, besides teaching them the fundamentals
of public-spirited, useful citizenship.

While the enrollment and re-
turning enrollment are increasing, the
schools under which this effort has
been put forth, the Department
has not yet been able to make all
boys and girls in rural schools fit
for the benefit of this training at present.

THE PIE COUNTER

There has been murmuring for
several times on the part of
Senate Senators, Congressmen and
officers seeking the showman
of President Roosevelt in replacing
Republican office-holders with
Democrats.

But the President evidently be-
lieves that getting his recovery pro-
gresses well, why is of more impor-
tance than giving him a chance
to continue his political career.

In view of its being made to
appear to the Register by affidavit
of B. W. Simmons, Agent and At-
torney for the Pie Counter, that
the President has stirred up a hornets'
nest by suggesting that all post-
masters should be replaced by
Democrats, the pie counter has
been appointed on the recom-
mendation of the Pie Counter.

Presently pie counters have for
many years gone through the
hands of a Civil Service examina-
tor, who has been given the title
of "Pie Counter."

"Son, why hast thou thus dealt
with me?" she demanded. "Be-
cause I am the Pie Counter," he
replied, "and everybody knows that
I am the Pie Counter."

"I wonder what answer she ex-
pected to receive," he said. "I
would have expected that she would
have said, 'I am the Pie Counter,'
but she did not say that."

"She was right, though," he
said. "I am the Pie Counter."

"I wonder what answer she ex-
